

DECREASING YOUR SUPPLY SPEND

*Through a Simple Online Tool
That Pays for Itself*

How do you decrease your costs without cutting back your business? It seems like an anomaly. You can only reduce your staff and operating costs so far; then you have to start considering efficiencies. Part of the problem is that you have so many vendors with so many products, which all have to be ordered from different web sites or catalogs by various people in different departments—it's hard to keep track of it all. If you use the ordering systems supplied by your vendors, you'll end up with a hodgepodge of procedures and bill outs, each with its own unique problems. And, if you want to add or change a vendor, you'll have to change your system as well. There has to be a better way.

ENDING THE MADNESS—The *only* way to avoid this madness and reclaim your sanity is by consolidating all your vendors into one system, and the only way to do that *efficiently* is through an online tool called Your Supply Center™. Your Supply Center—offered exclusively by CoreXpand™—consolidates all the elements of your supply chain into one web site, giving you a single online view of all your products, supplies, vendors and budgets in one place with one system. And it does this with no IT involvement, with very little effort on your part, and at a very affordable price. Not only will you feel like you have control over your supply channel again, you'll also have the accountability, efficiency, visibility and service you were missing. Plus, through our network of prime vendors, you'll be able to reduce your supply spend by 15-25%.

SIMPLE SOLUTIONS THAT PAY FOR THEMSELVES—The truth is, your present system already has the money to pay for Your Supply Center hidden within its inefficiencies. The time and money you'll save by having a system that really works will more than pay for the Your Supply

Center tool, and give you time to spend where you're needed most. Can you afford to continue pouring money into a system that doesn't work? Your Supply Center is the online tool managers have been seeking to make supply ordering easy to manage, easy to coordinate and easy to afford. And it's ready to go today!

GETTING STARTED

1. E-mail us (bizdev@coreexpand.com), visit our web site (www.coreexpand.com) or call us at 1-800-226-0834.
